

## New Module: release in Oct 2019

### BMX Fragmenter

First real 3D fragmentation analysis from drone imagery

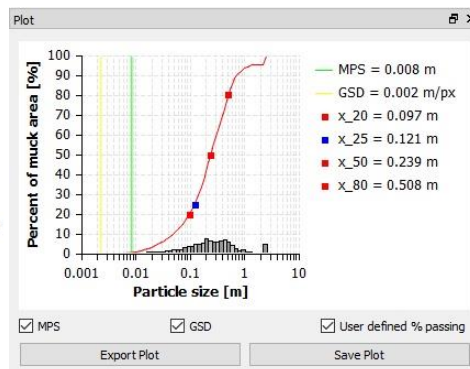

#### Features

- Combined 2D and 3D analysis
- Fully automated
- Scales automatically
- Easy user intervention possible
- Statistic evaluation

#### Benefits

- Overcomes drawbacks of pure 2D analysis
- Easy to use
- Fits perfect for blast quality control
- Combines with BlastMetriX UAV

**3GSM – Simply Measure!**
